AVENT

Highlights

Zero interference with DECT

DECT technology guarantees zero interference from any other transmitting product like other baby monitors, cordless phones and cell phones. Data encryption provides a secure and private connection, so you can be sure that you are the only one that can hear your baby.

Smart ECO mode

The unique Smart ECO mode automatically minimizes your transmission power and increases your battery lifetime. The closer you are to your baby, the less power is needed for a perfect connection (not available in US and Canada).

Crystal clear sound

Hear every tiny giggle, gurgle and hic-up with perfect clarity. DECT technology provides high quality, crystal clear sound so you can hear your baby anytime.

Range 300

Indoor range up to 50 meters*, Outdoor range up to 300 meters*.

Mains and battery operated

The parent unit runs perfectly on mains power. For extra mobility you can also insert batteries to allow cordless use of the parent unit. You can insert two 1.5V R6 AA alkaline non-rechargeable batteries or two 1.2V R6 AA rechargeable batteries*.

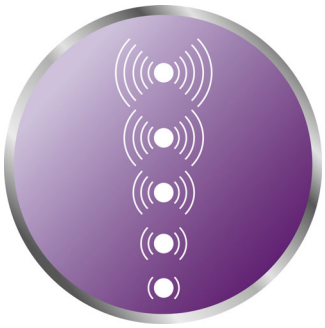
Always connected

The parent unit of Philips AVENT baby monitor will alert when the power is low or if you are out of range.

Volume control

Variable volume to hear every little sound, so you can hear your baby.

5 LED lights



Lights are activated to indicate the level of sound in your baby's room. Even when the Parent Unit is muted.

Operating time up to 24 hours

The operating time on full batteries is up to 24 hours, depending on the type of batteries used and how often and how long you use the parent unit on batteries.
